## Summary

As a computer science engineering student, I have a deep passion for the technology that powers the world around us. Through my coursework and hands-on experience with programming languages like C,C++, python,javascript and core java programming, I have developed a strong foundation in computer science theory and practical application.

In addition to my technical skills, I am a highly motivated and collaborative individual with strong communication and teamwork abilities. Whether working on a group project or tackling an individual coding challenge, I am always eager to learn and grow as a software developer.

As I continue to explore the field of computer science engineering, I am excited to bring my creativity, problem-solving abilities, and strong work ethic to a role where I can contribute to the development of innovative technology solutions. I am always open to connecting with like-minded professionals, so feel free to reach out and connect!
